### New Medicare Cards Coming in 2018 ~ Beware of Scams

Have you heard you'll be getting a new Medicare card? Wondering when or why? This isn't happening until April 2018 but scammers are already jumping on the confusion as an opportunity for fraud.

#### WHY:

Due to Congress' passage of the Medicare Access and CHIP Reauthorization Act (MACRA) in 2015, the Centers for Medicare and Medicaid Services is required to remove Social Security numbers from all Medicare cards.

This change is to help prevent fraud and protect your identity. Currently, most people's Social Security number is their Medicare number, which makes collecting Medicare numbers an easy target for scammers to steal your identity, open new credit cards or take out loans in your name. The new number, however, will not be tied to your Social Security number and is therefore more secure.

#### HOW?

So how may scammers use this change to their advantage? Some scammers call beneficiaries claiming to be Medicare and say they must confirm their current Medicare numbers before sending them a new card. Others call saying there is a charge for the new card and are collecting beneficiaries' personal information. There is no charge for your new card and Medicare will never call you for your information. They already have it.
